

Dear ladies and gentlemen!

We welcome you on the official web page of specialised exhibition – “Comfort House” 2011!

Comfort House is logical continuation of the spring international forum [InterBudExpo](#) and will have a new format, answering the modern requirements of market demand which has increased in the sector of private building.

Building market gives consumers huge variety of commodities and services, and it's very difficult to find the best variant - «price-quality». The Comfort House exhibition will help to find solutions to create the unique interior, build a house or make repair. On the exhibition you will find not only materials and equipment, but complex decisions.

The special accent is made on energy saving and environmentally clean materials and technologies, optimisation of building, architectural and project decisions.

Organisers will interest in innovative ideas and new measures within the framework of exhibition: the gallery-presentation of the best roofing and facade systems decisions; presentation [Country living](#) exhibition (wooden house-building and landscape design).

Comfort House is a brand already, because it develops and specifies the main thematic sections of the main building forum of Ukraine - [InterBudExpo](#) .
